Report of the National Reading Panel : Teaching Children to Read : an Evidence-based Assessment of the Scientific Research Literature on Reading and Its Implications for Reading Instruction : Reports of the Subgroups National Reading Panel (U.S.),2000 In 1997, Congress asked the Director of the National Institute of Child Health and Human Development (NICHD), in consultation with the Secretary of Education, to convene a national panel to assess the status of research-based knowledge, including the effectiveness of various approaches to teaching children to read. The panel was charged with providing a report that should present the panel's conclusions, an indication of the readiness for application in the classroom of the results of this research, and, if appropriate, a strategy for rapidly

disseminating this information to facilitate effective reading instruction in the schools -- p. 1-1.

Grade R in Perspective Anel Pepler, 2015-12-01 Grade R in Perspective is a structured academic guide for students, educators and practitioners in the field of early child development. It is compiled according to the Curriculum and Assessment Policy Declaration (CAPS) of the National Department of Education 2011 and presents the latest tendencies of international sources. The focus is put on preparing the student to understand the principles of the informal teaching approach and to implement them. Clear directions are given to develop knowledge, skills and attitudes in the young child so that each learner can achieve self-realisation. Information is given on organising the classroom and the play area to create optimal learning opportunities for the learners. The different levels of development and cultures of the learners are taken into consideration. Valuable suggestions for teaching in practice are illustrated with appropriate examples and photos.

The Common Core in Action Deborah J. Jesseman, 2015-06-19 This book addresses Common Core State Standard curriculum resources to assist the school librarian in collaborating with classroom teachers. Librarians are being asked to understand the Common Core State Standards (CCSS) and their implications to programming and instruction, as well as to collection development planning. Using lesson plans originally published in School Library Monthly, this title builds upon them, adding many additional plans that address CCSS issues. The plans will help you implement the standards and can also be used as stepping stones to facilitate planning conversations and collaboration with teachers to co-teach lessons correlated with the standards. The book begins with an overview of the CCSS—what they are, how are they different from the content

standards, and what the implications are for schools where the state has adopted them, including what the CCSS mean for collection development. It then goes on to explore the opportunities the CCSS present for the school librarian, looking at how you can become a leader in employing the process. The majority of the book is devoted to reproducible lesson plans, organized by curricular area or topic and grade level for ease of use.
