Conversations at the Well Jung Eun Sophia Park, Teresa Maya, 2019-08-29 Are religious women in the United States disappearing and finally dying out? Or is there any new way of religious life emerging? Conversations at the Well tries to respond to this question. In the twenty-first century of the global world, newly emerging religious life would be rooted with the Jesus Movement and develop in the spirit of collaboration, networking, and intercultural living. As the liminal space, religious life is located at the margins, subverting the existing social order and creating a new vision for the world. This book explores an alternative meaning of religious life within the context of the apostolic mission. In this new religious life, the concept of community is not limited to living as a community in the convent, but extended into collaborating friendship. Primarily, the apostolic religious life is deeply related to social justice, delinking the global capitalism in which many people suffer from human trafficking, immigration, and exile. The new leader of religious women would require skill in handling uncertainty, amplifying resources, and opening to the new reality. In this new religious life, spirituality would be articulated as freedom and liberation to let go of the old frame, as well as letting the new life become reality. In this way, as radical disciples, religious women in the twenty-first century embody the Jesus Movement, building bridges between different
cultures and people.

THINK CONFIDENCE CREATE COURAGE PREM AGGARWAL, 2023-10-12 How to Build Confidence Confidence is not an innate, fixed characteristic. It's an ability that can be acquired and improved over time. Social confidence can be developed by practicing in social settings. Individuals can observe the structure and flow of any conversation before jumping in, and they can prepare questions or topics to discuss ahead of time. Anxiety can take hold when people are plagued by self-doubt, so putting themselves in and getting accustomed to the specific situation they fear can assure people that nothing truly bad will happen. And the activity gets easier with practice. Outside of a social context, one can gain a sense of confidence from personal and professional accomplishments. Continuing to set and meet goals can enable the belief that one is competent and capable.

Pack Your Luggage but Leave Your Baggage Ethel Mae, 2019-10-29 To get through life, you must leave your baggage behind. Ethel Mae, a survivor of mental, physical, and sexual abuse, drives that point home in this inspiring guide to leaving guilt, shame, fear, low self-esteem, and more in the rearview mirror. She shares parts of her personal story and makes observations on life so you can: appreciate your strengths and love yourself; confront and overcome whatever is holding you back and bothering you; take responsibility for your future; and adjust your attitude to achieve success; The author also highlights the power of words—and why it’s important to use them wisely—as well as why it’s important to forgive others and set yourself free. To pay attention to the people you surround yourself with, who influences you, basically put “who claps when you win”. She also explains that it’s important to look at life as a cruise where you enjoy the journey instead of being so fixated and anxious on a destination. Overcome negative thoughts and behavior patterns, reflect on what you must do moving forward, and take meaningful steps to make the changes within yourself to achieve your dreams with the guidance in this book.
