Understanding Early Childhood Education and Care in Australia, Joanne Ailwood, 2020-07-16 In order to effectively practise as an early childhood educator it is essential to understand the theories, policies and pedagogy that shape the discipline. Understanding Early Childhood Education and Care in Australia provides core foundational knowledge that is critical for best practice. Part One looks at concepts of childhood and the development of mass education before examining influential theories including developmental psychology, sociology, feminisms and critical theory. Specific approaches are also analysed including Reggio Emilia, Montessori, Multiple Intelligences and HighScope. Part Two focuses on the guiding frameworks and policies in Australia and explores in depth issues affecting Indigenous children and provisions for recognising diversity and the practice of inclusion. The final section examines teaching and leadership and considers curriculum, pedagogy and assessment, building relationships between staff and families, the care of babies and infants, the environment in which early childhood education takes place and the responsibilities and professional development of teachers. This essential reference will ensure pre-service teachers develop a sophisticated understanding of how theory underpins effective practice in early childhood education.
**Early Childhood Leadership in Action** Elizabeth Stamopoulos, 2020-07-16 Leadership is a core skill required by all early childhood educators, whatever position they hold - whether leading their own ethical and professional practice or leading others. From understanding ethical frameworks to managing change, and from quality assurance to working with teams, families and the wider community, the most effective early childhood leaders act with confidence, flexibility and creativity. In this book early childhood researchers Elizabeth Stamopoulos and Lennie Barblett provide a new model for leadership. Recognising that leadership is both an individual and collective endeavour, multi-layered and multidimensional, the authors have distilled core tasks of leadership that are explored in detail in each chapter: *Understanding and conceptualising theories of leadership *Leading in times of change * Advocating for high quality pedagogy and practice *Developing strong communication skills * Leading through digital technology and media * Developing effective teams * Building positive relationships with families and the wider community * Embedding Indigenous perspectives * Embracing evidence-based research And * Leading ethical practice. Featuring the perspectives of leaders from diverse settings, together with reflection exercises and discussion questions throughout, this is an essential book for both pre-service and in-service early childhood educators. 'The authors...are commended for their commitment to shining a light on a wide range of research, theories and issues concerned with leadership and the early childhood profession. These chapters explore the challenges of working within various early childhood settings and the importance of connecting and communicating with families and the broader community.
