**Dance Between Two Cultures** William Luis, 2001 Offers insights on Latino Caribbean writers born or raised in the United States who are at the vanguard of a literary movement that has captured both critical and popular interest. In this groundbreaking study, William Luis analyzes the most salient and representative narrative and poetic works of the newest literary movement to emerge in Spanish American and U.S. literatures. The book is divided into three sections, each focused on representative Puerto Rican American, Cuban American, and Dominican American authors. Luis traces the writers' origins and influences from the nineteenth century to the present, focusing especially on the contemporary works of Oscar Hijuelos, Julia Alvarez, Cristina Garcia, and Piri Thomas, among others. While engaging in close readings of the texts, Luis places them in a broader social, historical, political, and racial perspective to expose the tension between text and context. As a group, Latino Caribbeans write an ethnic literature in English that is born of their struggle to forge an identity separate from both the influences of their parents' culture and those of the United States. For these writers, their parents' country of origin is a distant memory. They have developed a culture of resistance and a language that mediates between their parents' identity and the culture that they themselves live in. Latino Caribbeans are engaged in a metaphorical dance with Anglo Americans as the dominant culture. Just as that dance represents a coming together of separate influences to make a unique art form, so do both Hispanic and North American cultures combine to bring a new literature into being. This new body of literature helps us to understand not only the adjustments Latino Caribbean cultures have had to make within the larger U.S. environment but also how the dominant culture has been affected by their presence.

**The Cambridge History of Latin American Literature** Roberto Gonzalez Echevarría, Enrique Pupo-Walker, 1996-09-19
The Cambridge History of Latin American Literature is by far the most comprehensive work of its kind ever written. Its three volumes cover the whole sweep of Latin American literature (including Brazilian) from pre-Colombian times to the present, and contain chapters on Latin American writing in the USA. Volume 3 is devoted partly to the history of Brazilian literature, from the earliest writing through the colonial period and the Portuguese-language traditions of the nineteenth and twentieth centuries; and partly also to an extensive bibliographical section in which annotated reading lists relating to the chapters in all three volumes of The Cambridge History of Latin American Literature are presented. These bibliographies are a unique feature of the History, further enhancing its immense value as a reference work.
Con una letra joven, 2015-02-20 Se presentan algunas de las comunicaciones presentadas en el XIII Congreso Internacional de la AJIHLE, Asociación de Jóvenes Investigadores de Historiografía e Historia de la Lengua Española, celebrada en, Salamanca (España), en abril de 2013. Todo aquí está dedicado al pasado, a la historia: a la historia de fenómenos, acontecimientos y datos lingüísticos; a la historia de los estudios y tratamientos dados a esos fenómenos, acontecimientos y datos; y ello en grado diverso. De la historia de las ideas (meta-)lingüísticas sobre el español se ocupan cuatro trabajos (gramaticografía, lexicografía, análisis del discurso) y una mesa redonda de carácter panorámico y metodológico a propósito de la historia e historiografía de las ideas gramaticales (focalizada en la lengua española). De la historia del español trata todo lo demás (25 trabajos; poco más de un 80% del total): artículos sobre asuntos muy variados asignables a los ámbitos de la «Lingüística descriptiva diacrónica», por un lado (más o menos, la «gramática histórica» de los mayores): fonética, representación gráfica de unidades fónicas, sufijos, formación de palabras, clíticos, clases de palabras (numerales, tipos de verbos, adverbiales, nexos), gramaticalización de unidades, formas verbales, voseo, dequéisme... Artículos, por el otro lado, clasificables bajo el marbete de «Estudios sobre la historia» (no precisamente externa) «de la lengua española»; se encuentran aquí aportaciones de temática, metodología y alcance muy diversos: sobre traducciones, relaciones culturales, recepción de corrientes, ideas y términos, variedades diacrónicas y diatópicas, léxico y familias léxicas, terminología, historia de palabras, documentación e inventarios, o nuevos modelos de edición. El lector está accediendo desde estas líneas a un acertado maridaje de asuntos varios de naturaleza histórico-lingüística; se está adentrando, desde este exordio, en una excelente miscelánea —de ejecución cabal por parte de las editoras del volumen— que le permitirá tomar consciencia de la vitalidad y productividad investigadoras de estos jóvenes, así como de la diversidad de cuestiones y líneas de investigación abiertas de que se han hecho cargo los miembros de la asociación. El lector del libro podrá, por último, hacerse una atinada composición de lugar del presente y del futuro próximo de las investigaciones y la metodología de la investigación sobre el pasado de nuestra lengua.

Análisis métrico y comentario estilístico de textos literarios José DOMÍNGUEZ CAPARRÓS, 2005-01-20 En la presente obra se trata de ofrecer una guía teórica y unos ejemplos para la práctica escolar del análisis métrico y del comentario estilístico de textos literarios en verso. Los ejemplos de análisis métrico deben entenderse como una ilustración de nuestro manual de Métrica española (Madrid, Editorial Síntesis, 2000, 2.a edición), y por eso se remite a los pasajes concretos de este libro para la explicación de la teoría general.

Havana USA María Cristina García, 1996-02-29 In the years since Fidel Castro came to power, the migration of close to
one million Cubans to the United States continues to remain one of the most fascinating, unusual, and controversial
movements in American history. María Cristina García—a Cuban refugee raised in Miami—has experienced firsthand many of
the developments she describes, and has written the most comprehensive and revealing account of the postrevolutionary
Cuban migration to date. García deftly navigates the dichotomies and similarities between cultures and among generations.
Her exploration of the complicated realm of Cuban American identity sets a new standard in social and cultural history.

**Historical Dictionary of U.S. Latino Literature**

Francisco A. Lomeli, Donaldo W. Urioste, María Joaquina Villaseñor, 2016-12-27

U.S. Latino Literature is defined as Latino literature within the United States that embraces the
heterogeneous inter-groupings of Latinos. For too long U.S. Latino literature has not been thought of as an integral part of
the overall shared American literary landscape, but that is slowly changing. This dictionary aims to rectify some of those
misconceptions by proving that Latinos do fundamentally express American issues, concerns and perspectives with a flair in
linguistic cadences, familial themes, distinct world views, and cross-cultural voices. The Historical Dictionary of U.S. Latino
Literature contains a chronology, an introduction, and an extensive bibliography. The dictionary section has cross-referenced
entries on U.S. Latino/a authors, and terms relevant to the nature of U.S. Latino literature in order to illustrate and
corroborate its foundational bearings within the overall American literary experience. This book is an excellent access point
for students, researchers, and anyone wanting to know more about this subject.

**Metaphor II**

1990-01-01 Metaphor, though not now the scholarly “mania” it once was, remains a topic of great interest in
many disciplines albeit with interesting shifts in emphasis. Warren Shibles' Metaphor: An Annotated Bibliography and
History (Bloomington, Ind. 1971) recorded the initial interest. Then Metaphor: A Bibliography of Post-1970 Publications,
published by John Benjamins, continued the record through the mania years up to 1985 when writings proliferated as
metaphor was seen to be a fundamental category in human thought and language. Five years later, there is a need for a
report on the newest thinking and tendencies in the field. This need is fulfilled by Metaphor II which offers a comprehensive
view of information which would otherwise remain scattered throughout a numbing plethora of resources, including many
sometimes-hard-to-find publications from Eastern Europe. Metaphor II systematically collects references of books, articles
and papers published between 1985 and May 1990, and includes for completeness corrections and additions to the earlier
bibliographies. Abstracts are given for many of the titles, while four indices (disciplines, semantic fields, metaphor theory and
names) multiply the number of access points to the information.

**Latin American Women Writers: An Encyclopedia**

María Claudia André, Eva Paulino Bueno, 2014-01-09
American Women Writers: An Encyclopedia presents the lives and critical works of over 170 women writers in Latin America between the sixteenth and twentieth centuries. This features thematic entries as well as biographies of female writers whose works were originally published in Spanish or Portuguese, and who have had an impact on literary, political, and social studies. Focusing on drama, poetry, and fiction, this work includes authors who have published at least three literary texts that have had a significant impact on Latin American literature and culture. Each entry is followed by extensive bibliographic references, including primary and secondary sources. Coverage consists of critical appreciation and analysis of the writers' works. Brief biographical data is included, but the main focus is on the meanings and contexts of the works as well as their cultural and political impact. In addition to author entries, other themes are explored, such as humor in contemporary Latin American fiction, lesbian literature in Latin America, magic, realism, or mother images in Latin American literature. The aim is to provide a unique, thorough, scholarly survey of women writers and their works in Latin America. This Encyclopedia will be of interest to both to the student of literature as well as to any reader interested in understanding more about Latin American culture, literature, and how women have represented gender and national issues throughout the centuries.

**Song of the Simple Truth** Julia de Burgos, 1995-11-01

Song of the Simple Truth (Canción de la verdad sencilla) is the first bilingual edition of Julia de Burgos' complete poems. Numbering more than 200, these poems form a literary landmark—the first time her poems have appeared in a complete edition in either English or Spanish. Many of the verses presented here had been lost and are presented here for the first time in print. De Burgos broke new ground in her poetry by fusing a romantic temperament with keen political insights. This book will be essential reading for lovers of poetry and for feminists.

**Daughters of the Diaspora** Miriam DeCosta-Willis, 2003

Daughters of the Diaspora features the creative writing of 20 Hispanophone women of African descent, as well as the interpretive essays of 15 literary critics. The collection is unique in its combination of genres, including poetry, short stories, essays, excerpts from novels and personal narratives, many of which are being translated into English for the first time. They address issues of ethnicity, sexuality, social class and self-representation and in so doing shape a revolutionary discourse that questions and subverts historical assumptions and literary conventions. Miriam DeCosta-Willis's comprehensive Introduction, biographical sketches of the authors and their chronological arrangement within the text, provide an accessible history of the evolution of an Afra-Hispanic literary tradition in the Caribbean, Africa and Latin America. The book will be useful as textbook in courses in Africana Studies, Women's Studies, Caribbean, Latina and Latin American Studies as well as courses in literature and the humanities.

Deconstructing Paradise Patricia E. Reagan, 2016-06-23 Deconstructing Paradise investigates Christian symbols that appear in Latin American Literature in an inverted way. The texts under investigation invert the Christian center to generate a social, political, cultural, or even artistic commentary. In doing so, each text underscores a search for meaning that rejects the centering presence of the more traditional Christian focus that has long validated humankind’s existence both in society and in literature. As Deconstructing Paradise examines, finding a unified center around which to construct meaning is no longer possible, although the search for meaning persists in the inverted Christian center. The first three chapters analyze the trifecta of novels that offer a full allegory of inverted Christian symbolism including: Miguel Ángel Asturias’ El Señor Presidente; Juan Rulfo’s Pedro Páramo and José Donoso’s El lugar sin límites. Chapters Four and Five focus on inverted Christ and inverted Judas figures in multiple novels and short fiction. As many Latin American literary critics affirm, it is increasingly difficult to categorize fiction after the Boom, although even the usefulness of these categories is ultimately questionable. Literary critics now look for patterns and Deconstructing Paradise offers one such pattern by identifying a trend in an impressive scope of the well-known authors of twentieth-century Latin American literature, while also tracing this pattern back to nineteenth-century precursors. Deconstructing Paradise offers a unique and comprehensive look at a significant trend that will undoubtedly foment new ideas and paths of study in contemporary Latin American literature.
