Love Cycles, Fear Cycles David Woodsfellow, Deborah Woodsfellow, 2018-03-27 Love Cycles Fear Cycles teaches readers the most important idea in all of couples therapy This idea gives readers a new understanding of what s been going wrong in their marriage and a new way to make things right The key idea is changing a couple s negative cycle back into their positive cycle Most relationships start in a positive cycle where both people feel wonderful and respond lovingly There are four words that describe each couple s positive cycle one for each person s good feeling and one for each person s loving response However as challenges arise people instinctively respond with some type of fight or flight Over time these responses spiral together into a negative cycle where each person feels bad and responds defensively There are four words for each couple s negative cycle one for each person s worst feeling and one for each person s defensive reaction Many couples get trapped in their negative cycle and their relationship spirals deeper into hurt and loneliness To have a good marriage a couple needs to find a way out of their negative cycle and back into their positive cycle Love Cycles Fear Cycles teaches readers how to do that From his decades as a couples therapist Dr Woodsfellow has distilled this one most essential component of all successful marriage counseling He now presents this to the general public in a way that is easy to understand and easy to use
