

Oxford History Of The United States

Samuel Eliot Morison

The Oxford History of the United States, 1900-1929 Bruce Schulman, 2013-10-15

The Oxford Companion to United States History, In this volume that is as big and as varied as the nation it portrays are over 1,400 entries written by some 900 historians and other scholars, illuminating not only America's political, diplomatic, and military history, but also social, cultural, and intellectual trends; science, technology, and medicine; the arts; and religion.

The Republic for which it Stands Richard White, 2017 The newest volume in the Oxford History of the United States series, *The Republic for Which It Stands* argues that the Gilded Age, along with Reconstruction--its conflicts, rapid and disorienting change, hopes and fears--formed the template of American modernity.

The Oxford History of the American People Samuel Eliot Morison, 1972

The Oxford History of the United States Samuel Eliot Morison, 1927

Empire of Liberty: A History of the Early Republic, 1789-1815 Gordon S. Wood, 2009-10-28 The Oxford History of the United States is by far the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, two New York Times bestsellers, and winners of the Bancroft and Parkman Prizes. Now, in the newest volume in the series, one of America's most esteemed historians, Gordon S. Wood, offers a brilliant account of the early American Republic, ranging from 1789 and the beginning of the national government to the end of the War of 1812. As Wood reveals, the period was marked by tumultuous change in all aspects of American life--in politics, society, economy, and culture. The men who founded the new government had high hopes for the future, but few of their hopes and dreams worked out quite as they expected. They hated political parties but parties nonetheless emerged. Some wanted the United States to become a great fiscal-military state like those of Britain and France; others wanted the country to remain a rural agricultural state very different from the European states. Instead, by 1815 the United States became something neither group anticipated. Many leaders expected American culture to flourish and surpass that of Europe; instead it became popularized and vulgarized. The leaders also hope to see the end of slavery; instead, despite the release of many slaves and the end of slavery in the North, slavery was stronger in 1815 than it had been in 1789. Many wanted to avoid entanglements with Europe, but instead the country became involved in Europe's wars and ended up waging another war with the former mother country. Still, with a

new generation emerging by 1815, most Americans were confident and optimistic about the future of their country. Named a New York Times Notable Book, *Empire of Liberty* offers a marvelous account of this pivotal era when America took its first unsteady steps as a new and rapidly expanding nation.

What Hath God Wrought Daniel Walker Howe, 2007-10-29 The Oxford History of the United States is by far the most respected multi-volume history of our nation. In this Pulitzer prize-winning, critically acclaimed addition to the series, historian Daniel Walker Howe illuminates the period from the battle of New Orleans to the end of the Mexican-American War, an era when the United States expanded to the Pacific and won control over the richest part of the North American continent. A panoramic narrative, *What Hath God Wrought* portrays revolutionary improvements in transportation and communications that accelerated the extension of the American empire. Railroads, canals, newspapers, and the telegraph dramatically lowered travel times and spurred the spread of information. These innovations prompted the emergence of mass political parties and stimulated America's economic development from an overwhelmingly rural country to a diversified economy in which commerce and industry took their place alongside agriculture. In his story, the author weaves together political and military events with social, economic, and cultural history. Howe examines the rise of Andrew Jackson and his Democratic party, but contends that John Quincy Adams and other Whigs--advocates of public education and economic integration, defenders of the rights of Indians, women, and African-Americans--were the true prophets of America's future. In addition, Howe reveals the power of religion to shape many aspects of American life during this period, including slavery and antislavery, women's rights and other reform movements, politics, education, and literature. Howe's story of American expansion culminates in the bitterly controversial but brilliantly executed war waged against Mexico to gain California and Texas for the United States. Winner of the New-York Historical Society American History Book Prize Finalist, 2007 National Book Critics Circle Award for Nonfiction *The Oxford History of the United States* The Oxford History of the United States is the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, a New York Times bestseller, and winners of the Bancroft and Parkman Prizes. The Atlantic Monthly has praised it as the most distinguished series in American historical scholarship, a series that synthesizes a generation's worth of historical inquiry and knowledge into one literally state-of-the-art book. Conceived under the general editorship of C. Vann Woodward and Richard Hofstadter, and now under the editorship of David M. Kennedy, this renowned series blends social, political, economic, cultural, diplomatic, and military history into coherent and vividly written narrative.

Grand Expectations James T. Patterson, 1996 Interweaving key cultural, economic, social, and political events, a history of the United States in the post-World War II era ranges from 1945, through a turbulent period of economic growth and social upheaval, to Watergate and Nixon's 1974 resignation

Named a New York Times Notable Book, *Empire of Liberty* offers a marvelous account of this pivotal era when America took its first unsteady steps as a new and rapidly expanding nation.

The Oxford History of English Lynda Mugglestone,2012-11-29 This text traces the language from its obscure Indo-European roots to its 21st-century position as the world's first language. It describes the history of English within the British Isles, its changing roles in different places, and its rise to global pre-eminence.

From Colony to Superpower George C. Herring,2008-10-28 The Oxford History of the United States is the most respected multi-volume history of our nation in print. The series includes three Pulitzer Prize-winners, a New York Times bestseller, and winners of prestigious Bancroft and Parkman Prizes. *From Colony to Superpower* is the only thematic volume commissioned for the series. Here George C. Herring uses foreign relations as the lens through which to tell the story of America's dramatic rise from thirteen disparate colonies huddled along the Atlantic coast to the world's greatest superpower. A sweeping account of United States' foreign relations and diplomacy, this magisterial volume documents America's interaction with other peoples and nations of the world. Herring tells a story of stunning successes and sometimes tragic failures, captured in a fast-paced narrative that illuminates the central importance of foreign relations to the existence and survival of the nation, and highlights its ongoing impact on the lives of ordinary citizens. He shows how policymakers defined

American interests broadly to include territorial expansion, access to growing markets, and the spread of an American way of life. And Herring does all this in a story rich in human drama and filled with epic events. Statesmen such as Benjamin Franklin and Woodrow Wilson and Harry Truman and Dean Acheson played key roles in America's rise to world power. But America's expansion as a nation also owes much to the adventurers and explorers, the sea captains, merchants and captains of industry, the missionaries and diplomats, who discovered or charted new lands, developed new avenues of commerce, and established and defended the nation's interests in foreign lands. From the American Revolution to the fifty-year struggle with communism and conflicts in Afghanistan and Iraq, *From Colony to Superpower* tells the dramatic story of America's emergence as superpower--its birth in revolution, its troubled present, and its uncertain future.

The Oxford History of Mexico William Beezley, William H. Beezley, Michael Meyer, 2010-08-03 The tenth anniversary edition of *The Oxford History of Mexico* tells the fascinating story of Mexico as it has evolved from the reign of the Aztecs through the twenty-first century. Available for the first time in paperback, this magnificent volume covers the nation's history in a series of essays written by an international team of scholars. Essays have been revised to reflect events of the past decade, recent discoveries, and the newest advances in scholarship, while a new introduction discusses such issues as immigration from Mexico to the United States and the democratization implied by the defeat of the official party in the 2000 and 2006 presidential elections. Newly released to commemorate the bicentennial of the Mexican War of Independence and the centennial of the Mexican Revolution, this updated and redesigned volume offers an affordable, accessible, and compelling account of Mexico through the ages.

Architecture in the United States Dell Upton, 1998 From Native American sites in New Mexico and Arizona to the ancient earthworks of the Mississippi Valley to the most fashionable contemporary buildings of Chicago and New York, American architecture is incredibly varied. In this revolutionary interpretation, Upton examines American architecture in relation to five themes: community, nature, technology, money, and art. 109 illustrations. 40 linecuts. Map.

Battle Cry of Freedom James M. McPherson, 2003-12-11 Filled with fresh interpretations and information, puncturing old myths and challenging new ones, *Battle Cry of Freedom* will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative fully integrates the political, social, and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War--the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry--and then moves into a masterful chronicle of the war itself--the battles, the strategic maneuvering on both sides, the politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's

victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war--slavery--and adopt a policy of emancipation as a second war aim. This new birth of freedom, as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing second American Revolution we call the Civil War, a war that transformed a nation and expanded our heritage of liberty.

Grand Expectations James T. Patterson,1996 And he shows how this upbeat, can-do mood spurred grander and grander expectations as the era progressed.

From Colony to Superpower George C. Herring,2008-10-28 The Oxford History of the United States is the most respected multi-volume history of our nation in print. The series includes three Pulitzer Prize-winners, a New York Times bestseller, and winners of prestigious Bancroft and Parkman Prizes. *From Colony to Superpower* is the only thematic volume commissioned for the series. Here George C. Herring uses foreign relations as the lens through which to tell the story of America's dramatic rise from thirteen disparate colonies huddled along the Atlantic coast to the world's greatest superpower. A sweeping account of United States' foreign relations and diplomacy, this magisterial volume documents America's interaction with other peoples and nations of the world. Herring tells a story of stunning successes and sometimes tragic failures, captured in a fast-paced narrative that illuminates the central importance of foreign relations to the existence and survival of the nation, and highlights its ongoing impact on the lives of ordinary citizens. He shows how policymakers defined American interests broadly to include territorial expansion, access to growing markets, and the spread of an American way of life. And Herring does all this in a story rich in human drama and filled with epic events. Statesmen such as Benjamin Franklin and Woodrow Wilson and Harry Truman and Dean Acheson played key roles in America's rise to world power. From the American Revolution to the fifty-year struggle with communism and conflicts in Afghanistan and Iraq, *From Colony to Superpower* tells the dramatic story of America's emergence as superpower--its birth in revolution, its troubled present, and its uncertain future.

The Oxford History of Byzantium Cyril Mango,2002-10-24 The Oxford History of Byzantium is the only history to provide in concise form detailed coverage of Byzantium from its Roman beginnings to the fall of Constantinople and assimilation into the Turkish Empire. Lively essays and beautiful illustrations portray the emergence and development of a distinctive civilization, covering the period from the fourth century to the mid-fifteenth century. The authors - all working at the cutting

edge of their particular fields - outline the political history of the Byzantine state and bring to life the evolution of a colourful culture. In AD 324, the Emperor Constantine the Great chose Byzantium, an ancient Greek colony at the mouth of the Thracian Bosphorus, as his imperial residence. He renamed the place 'Constantinopolis nova Roma', 'Constantinople, the new Rome' and the city (modern Istanbul) became the Eastern capital of the later Roman empire. The new Rome outlived the old and Constantine's successors continued to regard themselves as the legitimate emperors of Rome, just as their subjects called themselves Romaioi, or Romans long after they had forgotten the Latin language. In the sixteenth century, Western humanists gave this eastern Roman empire ruled from Constantinople the epithet 'Byzantine'. Against a backdrop of stories of emperors, intrigues, battles, and bishops, this Oxford History uncovers the hidden mechanisms - economic, social, and demographic - that underlay the history of events. The authors explore everyday life in cities and villages, manufacture and trade, machinery of government, the church as an instrument of state, minorities, education, literary activity, beliefs and superstitions, monasticism, iconoclasm, the rise of Islam, and the fusion with Western, or Latin, culture. Byzantium linked the ancient and modern worlds, shaping traditions and handing down to both Eastern and Western civilization a vibrant legacy.

The Oxford History of Islam John L. Esposito, 2000-04-06 Lavishly illustrated with over 300 pictures, including more than 200 in full color, The Oxford History of Islam offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, The Oxford History of Islam offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

Oxford History Of The United States Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has be more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **Oxford History Of The United States**, a literary masterpiece that delves deep in to the significance of words and their impact on our lives.
